Additional information

The max. overall length of the lamp may not exceed 25mm Electrical and optical data are measured at 25 °C The specified 6 VDC, 24 VDC Bi-colour; 130 VAC, 130 DC und 230 VAC versions are built with a protection diode The specified 130 VAC types are developed to run on a supply voltage of 130 VAC only. An operation at a higher supply voltage using commercial lampholders with integrated resistors, is not approved Luminosity and wave length variations caused by LED

manufacturing processes may cause slight differences regarding the illumination
