

Thomas & Betts

Thomas & Betts offers a wide variety of conduit bodies to fit all your wire-pulling needs!

T&B® Fittings

Series 35 Conduit Outlet
Bodies and Covers

***Ideal for any of your rigid
conduit applications!***

Series 35 Conduit Outlet Bodies and Covers

Completely Interchangeable with Other Manufacturers' 35/5 Series Iron and Steel Conduit Outlet Bodies and Covers

Thomas and Betts offers you the very best for your wire-pulling needs with its Series 35 Conduit Outlet Bodies and Covers. Made from zinc-plated iron, these conduit bodies act as mounting outlets, while providing access to conductors for maintenance and future system changes. Not only do they protect the conduit running through now, but they also provide easy access later when you need to service the conduit.

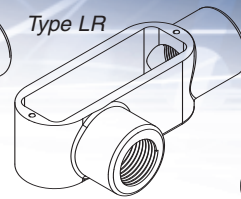

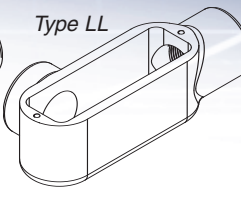

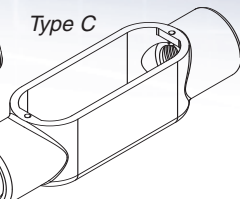

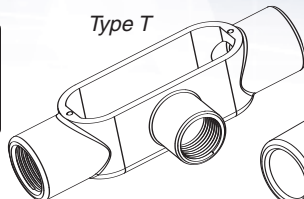

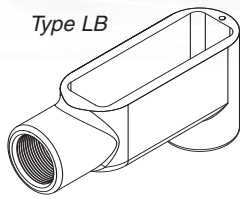

Ideal for use in MRO and industrial or commercial construction projects to:

- Connect conduit sections
- Serve as pulling outlets during conductor installation
- Provide easy access for splices in branch conductors
- Make 90° bends in conduit runs
- Act as mounting outlets for wiring devices and lighting fixtures
- Provide access to conductors for maintenance and future system changes

Features

- Zinc-plated iron construction with aluminum acrylic coating provides durability, impact resistance and corrosion resistance
- Available in sizes from ½" to 4" in Types C, LB, LL, LR and T
- Available in sizes from ½" to 2" in Types TB and X
- Features tapered, threaded NPT hubs
- Suitable for use in concrete
- Covers available in iron or stamped steel, both zinc-plated and supplied with stainless steel captive screws
- Steel covers feature raised dome for additional wiring room
